

Request for Proposal #RFP- 2010-01
Lean, Green & Connected: Designing Innovative Industrial Space for Advanced Manufacturing

Burlington Economic Development Corporation (BEDC) is inviting qualified consultants to submit proposals on the **Lean, Green & Connected: Designing Innovative Industrial Space for Advanced Manufacturing** project.

As part of its Next Generation Manufacturing Initiative, BEDC is collaborating with manufacturers on an action plan for the future of the manufacturing sector in Burlington. This project is designed to ensure that Burlington has a flexible supply of manufacturing space suitable for both incubating small start-up companies and accommodating the growth of small and medium sized firms during different stages of their growth. We are seeking a qualified Project Consultant who brings architectural, engineering and IT expertise, to work in partnership with BEDC and manufacturers to create model design specifications for a range of state-of-the-art, green, energy efficient and technologically advanced manufacturing facilities. A copy of the complete Request for Proposals is available on our website by clicking the link below.

Six copies of submissions are due to BEDC no later than 4:00 p.m. on Friday May 14, 2010.

Further information on BEDC's Next Generation Manufacturing Initiative is accessible online at www.bedc.ca High Performance Economy/Next Generation Manufacturing.
