

## **FOR IMMEDIATE RELEASE**

### **STANMECH Becomes Exclusive Distributor of Nex Flow Air Products in ON, QC**

**[July 5, 2010, Burlington, Ont.]** – STANMECH Technologies Inc. is pleased to announce that they have become the exclusive distributor for Nex Flow Air Products Corp. in Ontario and Quebec beginning July 1st, 2010. The Nex Flow Air Products line will help STANMECH Technologies' expand, allowing them to supply both compressed air and direct drive blower solutions for their customers.

"This addition puts STANMECH in the unique position of being an expert in both compressed air and blower based air delivery systems, allowing us to provide customers with individually tailored solutions which work to increase efficiency, lower costs, and improve processes, no matter which product line is chosen," said Anne-Marie Harte, General Manager of STANMECH Technologies Inc.

Nex Flow Air Products Corp. is a Canadian manufacturer of compressed air-operated products made to improve overall plant and energy efficiency, increase product quality and enhance the environment. Their product line includes air blow-off products that reduce noise levels and compressed air use, vortex tube technology for spot cooling, control panel cooling, tool cooling and other unique applications, air operated conveying products and static control technology.

"Having STANMECH Technologies Inc. as Nex Flow's partner allows us to expand our capacity in the Canadian market. Our products are high quality and manufactured in Canada so it's great to have a Canadian company representing us," said Les Rapchak, President of Nex Flow Air Products Corp.

STANMECH Technologies Inc. ([www.stanmech.com](http://www.stanmech.com)) provides solutions for processes that involve the precise application of heat and air. With expertise in plastics forming and joining methods, innovative packaging and sealing solutions, and heat sources for industrial applications, they customize solutions for specific applications challenges in most industries across Canada. STANMECH is based in Burlington, Ontario and can be reached at 1-888-GET-MECH.
